

GPSMAP® 76CSx

Part Number: 010-00469-00

The GPSMAP 76CSx adds a whole new dimension to the mariner-friendly 76-series navigators: a high-sensitivity GPS receiver, barometric altimeter and electronic compass, microSD™ card slot, color TFT screen and turn-by-turn routing — features that have made the 76CSx and its counterpart, the GPSMAP 76Cx, a mainstay among serious outdoor enthusiasts.

Navigate the Great Outdoors

Find your way through the wilderness with the GPSMAP 76CSx's high-sensitivity GPS receiver, which acquires satellite signals quickly and tracks your location in challenging conditions, such as heavy tree cover or deep canyons. You can use the built-in electronic compass to view bearing information even while you're standing still, and the barometric altimeter tracks changes in pressure to pinpoint your precise altitude. You can even use the altimeter to plot barometric or ambient pressure over time, which can help you keep an eye on changing weather conditions. The 76CSx's bright, color TFT display makes it easy to distinguish details on the screen in any kind of lighting. And, like the rest of the 76-series, 76CSx is IPX7 waterproof and even floats in water.

Expand Your Memory

Storing data is easier than ever with the 76CSx's removable microSD card. This included blank card stores up to 128 megabytes (MB) of optional maps or other data. The card slot is located inside the waterproof battery compartment, so you don't have to worry about getting it wet. When navigating on the road, the 76CSx provides turn-by-turn directions to your destination. It also accepts optional preloaded microSD cards with Map-Source® data for your off-road or marine excursions.

GPSMAP 76CSx: Color navigation and direction for your land and sea adventures

GPSMAP® 76CSx

Part Number: 010-00469-00

Physical & Performance:

Unit dimensions, WxHxD: 2.7" x 6.2" x 1.2" (6.9 x 15.7 x 3.0 cm)

Display size, WxH: 1.6" x 2.2" (4.1 x 5.6 cm)

Display resolution, WxH: 160 x 240 pixels

Display type: 256 color transreflective TFT

Weight: 7.7 oz (218 g) with batteries

Battery: 2 AA batteries (not included)

Battery life: 18 hours, typical

Waterproof: yes (IPX7)

Floats: yes

High-sensitivity receiver: yes

Interface: serial and USB

RoHS version available: yes

Maps & Memory:

Basemap: yes

Preloaded maps: no

Ability to add maps: yes

Built-in memory: none (cannot load maps to internal memory)

Accepts data cards: 128 microSD™ card (included)

Waypoints/favorites/locations: 1000

Routes: 50

Track log: 10,000 points; 20 saved tracks

Features:

Automatic routing (turn by turn routing on roads): yes

Electronic compass: yes

Touchscreen: no

Barometric altimeter: yes

Geocaching-friendly: yes

Outdoor GPS games: yes

Hunt/fish calendar: yes

Sun and moon information: yes

Tide tables: yes

Area calculation: yes

Custom POIs (ability to add additional points of interest): yes

Unit-to-unit transfer (shares data wirelessly with similar units): no

Picture viewer: no
