

nüvi® 885T

Part Number: 010-00577-30

Stay connected and ahead of the curve with nüvi 885T. This premium navigator features voice-activated navigation, lane assist with junction view, MSN® Direct and hands-free calling capability. Now you can keep both hands on the wheel, tell nüvi where to go and maneuver complicated interchanges with ease. Like the rest of the 805-series, it comes with a widescreen display, preloaded maps and more.

Speak Commands

nüvi 885T not only tells you where to turn but listens to your spoken commands. With nüvi's innovative speech recognition, you safely control nüvi's interface with your voice — allowing you to keep both hands on the wheel. Simply press the button on the remote (which attaches to the steering wheel) to activate speech recognition and begin speaking menu options. nüvi even recognizes shortcut phrases for popular functions. Tell nüvi "Find Address" and speak an address to start navigating.

Know the Lane Before It's Too Late

No more guessing which lane you need to be in to make an upcoming turn. Lane assist with junction view guides you to the correct lane for an approaching turn or exit, making unfamiliar intersections and exits easy to navigate. It realistically displays road signs and junctions on your route along with arrows that indicate the proper lane for navigation.

Get Enhanced MSN Direct

With next-generation dynamic content from MSN Direct, nüvi 885T is one resourceful personal travel assistant. Using the included receiver and free trial service¹ to MSN Direct, you can check your flight status, avoid traffic backups, compare local gas prices, get advanced weather information, enhanced movie listings, stock information, news and local events when you travel with your unit. Even plan trips from the convenience of your computer, via Windows Live Local, and wirelessly send locations to nüvi 885T.

See More

With nüvi 885T's widescreen display, you'll always get the big picture. View map detail, driving directions, photos and more in bright, brilliant color. Its sunlight-readable, 4.3-inch display is easy to read — from any direction.

Get Turn-by-Turn Directions

nüvi 885T's intuitive interface greets you with two simple questions: "Where to?" and "View map." Speak a menu option or touch the color screen to easily look up addresses and services and get voice-prompted, turn-by-turn directions that speak street names to your destination. It comes preloaded with detailed City Navigator® NT street maps, nearly 6 million points of interest (POIs) and features digital elevation maps that give you a big picture of the surrounding terrain. You can also upload custom points of interest (POIs). And with HotFix™ satellite prediction, nüvi calculates your position faster to get you there quicker.

Make Hands-free Calls

Talk about worry-free driving. For hands-free calling, nüvi 885T integrates Bluetooth® wireless technology with a built-in microphone and speaker. Just pair it with your compatible Bluetooth phone and talk hands-free through the 885T while staying focused on the road. Simply speak or dial numbers with nüvi's touchscreen keypad to make a call.

nüvi® 885T
