

MD Smart Level - Digital Carpenters Level

The Smart Tool is based around an electronic module which can display angle over a full 360° range with a resolution of 0.1°. It is available as either a stand alone module or as a 60cm or 120cm long levelling tool. The module can be used as supplied, or it can be panel mounted into your product or equipment. The SmartTool levels can be used in a variety of applications as both a conventional level and as an angle setting or measuring tool.

Controls include:

ON/OFF - automatic shut-off if left idle for 6 minutes

HOLD - freeze or unfreeze display readings

LISTEN & LEVEL AUDIO - beeper will sound at level and plumb

CALIBRATE - simple two-step calibration procedure (recommended once per day)

Deg.,%,IN/FT - select display units

UP/DOWN ARROWS - show direction of tilt to reach level or plumb

LOW BATTERY - low 9V battery indicator

Product Includes:

Available in 24 and 48" in. Digital Level - Smarttool

Operation Manual

9-V Battery

Case Extra

Smart Tool enables you to find level and plumb in two ways. For quick reference, use the sensitive acrylic bubbles. For high precision, use the digital display with amazing accuracy within 1/10 of a degree. If you're not dealing with plumb or level, Smart Tool quickly identifies any angle in 3 different modes: degrees, % slope and pitch.

MD - SmartTool Electronic Module - Digital Level

The SmartTool digital level is a durable field tool that can be used as a level, plumb and clinometer. It digitally displays angles in degrees, percent slope and pitch (inches of rise or fall per linear foot) to an accuracy of 1/10 degree. Controls include:

ON/OFF - automatic shut-off if left idle for 6 minutes

HOLD - freeze or unfreeze display readings

LISTEN & LEVEL AUDIO - beeper will sound at level and plumb

CALIBRATE - simple two-step calibration procedure (recommended once per day)

Deg.,%,IN/FT - select display units

UP/DOWN ARROWS - show direction of tilt to reach level or plumb

LOW BATTERY - low 9V battery indicator

Dimensions are 6" x 1 1/2" x 2". Weight 7 1/2 oz. Housed in environmentally sealed polycarbonate housing. 9 volt battery provides up to 120 hours of continuous use. Smart Tool enables you to find level and plumb in two ways. For quick reference, use the sensitive acrylic bubbles. For high precision, use the digital display with amazing accuracy within 1/10 of a degree. If you're not dealing with plumb or level, Smart Tool quickly identifies any angle in 3 different modes: degrees, % slope and pitch.
