

Easy - Read[®]; Pocket Thermometer

Non-Toxic, Non-Hazardous & Biodegradable.

Easy-Read[®] thermometers are the easiest to read and they replace mercury thermometers with the same accuracy without any hazards. Easy-Read[®] thermometers are filled with market leading Enviro-Safe[®] liquid that is 100% non-toxic, non-hazardous, and biodegradable. This liquid is dye black to create a better contrast against its yellow back lead free glass. This high contrast makes these thermometers "easy-to-read".

Each unit comes with individual serial numbers (except pocket size and 200mm) and a Statement of Accuracy indicating accuracy traceable to NIST and DKD. These thermometers are made in the USA by H-B Instrument Company - an ISO 9001:2000 company. Thermometer should be stored at a 15° angle minimum.

Required in these GLOBE protocols

- Air and Water Temperature.
- Relative Humidity.
- Salinity.
- Soil Particle Size.
- Calibration of Other Instruments.

Item #	Item Name	Range	Division	Accuracy	Length
30580	Closed Metal Case	-30 to 50°C	1 °	1°	160 mm
30565	Closed Metal Case	-10 to 110°C	1 °	1°	160 mm
30570	Closed Metal Case	-5 to 50°C	0.5 °	0.5°	160 mm
30560	Closed Metal Case	0 to 220°F	2 °	2°	160 mm
30575	Closed Metal Case	20 to 120°F	1 °	1°	160 mm
30582	Window Metal Case	-30 to 50°C	1 °	1°	160 mm
30568	Window Metal Case	-10 to 110°C	1 °	1°	160 mm
30572	Window Metal Case	-5 to 50°C	0.5 °	0.5°	160 mm
30562	Window Metal Case	0 to 220°F	2 °	2°	160 mm
30578	Window Metal Case	20 to 120°F	1 °	1°	160 mm
30576	Window Plastic Case	-5 to 50°C	0.5 °	0.5°	160 mm
30564	Window Plastic Case	0 to 220°F	2 °	2°	160 mm
30584	Aluminum Duplex Case	-5 to 50°C	0.5 °	0.5°	160 mm
30574	Window Nickel-Plated Brass Case	-5 to 50°C	0.5 °	0.5°	160 mm
