

**Item # 925, WIDE RANGE Infrared Thermometer with Thermocouple Socket**

**WIDE RANGE Infrared Thermometer with Thermocouple Socket**

H-B infrared thermometers are highly accurate and easy to use. We offer a variety of styles with multiple functions for any application.

Ideal for use in pharmaceutical and other laboratories, automotive, colleges and universities, food service and storage, cooking, research, chemistry, biology, HVAC, and anywhere contamination is detrimental and temperature readings are critical or difficult to reach.

- Laser sighting.
- K-type small thermocouple socket.
- Average, difference and Max/Min temperature readings.
- High/Low alarm.
- Temperature lock.
- Backlight.
- Low battery indicator.
- NIST traceable.
- CE Mark Certified.
- Battery included.
- Individually packaged.

**SPECIFICATIONS**

Distance to Spot Ratio	11 : 1
Emissivity	0.10 to 1
Range	-60 to 760 °C
Range	-76 to 1400 °F
Thermocouple Range	-54 to 1400 °C
Thermocouple Range	-83.2 to 1999 °F
Resolution	0.1 °C
Accuracy	± 2% of reading or 2°C (whichever is greater)
Thermocouple Accuracy	± 1% of reading or 1°C (whichever is Greater)
Size	175.2 x 39 x 71.9 mm
Size	6.9 x 1.5 x 2.8 inches
Weight	179 gm
Weight	0.4 lbs.
