## Disposable Clear PVC Bailers

2508  
Clear bailers allow quick spot checks in the field!

Made of clear virgin PVC with a density of 1.31, these bailers have a rapid sink rate without the additional cost and environmental impact of built-in weights. Other features include easy threading, smooth well entry and exit, longer bottoms for preventing silt entry and leakage, and easy pour tops to facilitate the sampling process. Emptying devices are separately sealed to prevent package tearing when removing from the box. Three sizes are available.

## Dome-End 36" Disposable Polyethylene Bailers

3242

**Domed-designed ends avoid hang-ups when lowering or retrieving bailers!**

Made of inert polyethylene, these inexpensive, disposable bailers are pre-cleaned in Liquinox™ laboratory detergent and then rinsed with de-ionized water, helping you eliminate cross contamination of samples and time-consuming clean-up in the field. **Available in your choice of three sizes:** 3/4", 1-5/8", or 3" O.D. Each bailer measures 36" long and has a friction fit nozzle for easy removal of sample.

### Single Check Valve Bailer

Has polyethylene retainer to retain the ball when emptying the bailer from the top. Also has a slide-in slotted nozzle for easy sample removal.

3/4" O.D. Small Dia. w/300 ml capacity and 1/2" PVC Ball, Case of 24	4.5 lbs.	<b>78028</b>
		4+ 6+

1-5/8" O.D. with 1 liter capacity and 3/4" PVC Ball, Case of 24	8 lbs.	<b>78015</b>
		4+ 6+

3" O.D. Purging with 1-1/2 gal. capacity and 1" PVC Ball, Case of 9	9 lbs.	<b>78030</b>
		4+ 6+

### Single Weighted Check Valve Bailer

Allows easier sample extraction from varying well depths. Has polyethylene retainer on top with weight, bottom polyethylene retainer, and slotted nozzle for easy sample removal.

3/4" O.D. Small Dia. Bailers w/300 ml capacity & 1/2" PVC Ball, Case of 24	5 lbs.	<b>78029</b>
		3+

1-5/8" O.D. Bailers with 1 liter capacity and 3/4" PVC Ball, Case of 24	11.5 lbs.	<b>78016</b>

## Dome-End Disposable Teflon® Bailers

3243

**Highly recommended when sampling high concentrations of contaminants that could cause permanent damage to more expensive bailers.**

New domed-designed ends avoid hang-ups when lowering or retrieving bailers! Designed for taking single samples, these inexpensive, non-weighted, disposable Teflon® bailers are pre-cleaned in Liquinox™ laboratory detergent and then rinsed with de-ionized water. They also help eliminate cross contamination of samples and time-consuming clean-up in the field. Both the 12" and 36" bailers have a 1/2" check ball and a 1-5/8" O.D. allowing them to be used in wells 2" I.D. or larger. Optional VOC Removal Device allows you to remove samples with the lowest possible amount of agitation. **Note:** Dome-End Bailers are not weighted.

### EcoPlug Locking Well Plug

3667

Constructed of recycled composite glass-filled polymer which is stronger than steel pound for pound, the EcoPlug is designed for years of worry-free use. The wing nut design with a recessed grip allows a lock (not included) to be easily secured to the well plug. The EcoPlug has a tethering attachment at the base for use with a variety of instruments, features no metal parts, and can be disassembled for easy decontamination.
